# Naturally Unique - Solid timber furniture

As timber is a natural material, every product made from it will have individual characteristics in colour, grain and even natural blemishes from the growth history of the tree, making each piece of timber furniture unique.

# Australia's most beautiful hardwood...Victorian Ash

Australia's harsh climate produces the most unique and durable hardwood. Grown in the vast, temperate forests of Victoria where fires, floods, winds and drought are prevalent, the Victorian Ash grows to an impressive height of almost 90 metres with a trunk up to 3 metres in diameter.

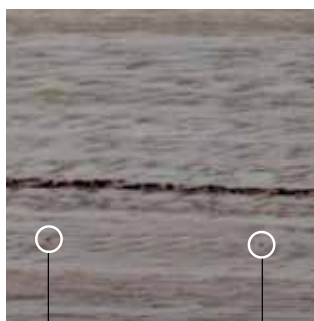

## Nature's Signature

Look closely and you'll discover nature's signature on every piece of timber. Deep gum veins run through the annual growth rings, revealing the impact of fires, winds and floods, while pin-holes and corkscrew trails highlight the handy work of the ambrosia beetle and squiggly worm.

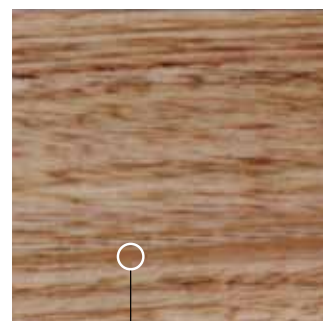

It all ensures that no two pieces of timber are ever the same, allowing designers and manufacturers the opportunity to create truly unique finishes. At the mill, the timber is then selected to ensure a consistent mix of characteristics.

## Furniture Care

Timber furniture is easily maintained by regular dusting with a soft cloth and the occasional wipe with a slightly damp cloth. Any spills and potential stains, such as red wine, should be immediately 'mopped' and the table dried with a clean, soft cloth.

Try to avoid placing your timber furniture in rooms where it will be in constant direct light or areas where there is dampness, changing temperatures or a source of constant heat, such as a heater.

## Guaranteed To Last

All timber furniture sourced by Adriatic (Elm or Victorian Ash) is guaranteed for two years against workmanship and construction faults.

A one-year guarantee is applied to the timber itself, which is harvested from sustainable growth forests. The timber is kiln dried to stabilise and minimise the possibility of cracking, checking and warping of the furniture in certain climatic conditions. However, it should be noted that some movement and change of appearance is a characteristic of all solid timber furniture and it is on that basis that we apply this warranty.

Finally, it is important to realise that while its appearance can alter over time, the unique value and beauty of solid timber will never change.

**IMPORTANT:** Please read this leather guide carefully.  
Inside you'll find all the information you need to keep your  
new timber furniture in optimum condition.
