Copper Infused Premium Knit

Copper infused knit provides great thermo-regulation of body temperature, is anti-microbial and helps relieve static discharge from your body for the perfect nights's sleep.

European 7 Zoned Pocket Coil Spring System

Featuring quality European 7 zoned pocket spring system. With taller springs for deeper targeted support and advanced body contouring with minimal partner disturbance.

GGT Progressive Comfort Technology

Two layers of premium high density foam sandwiched together to provide a smooth transition feel offering the perfect balance of comfort and support.

Edge Boost™ Surround Technology

EdgeBoost™ Boxed Wall is a foam box encasement to the outer edge of the mattress, creating maximum surface support from edge to edge, utilising the entire mattress surface.
